A broken friendship. An obsessive career. Financial distress. Even empty success. We come back to God, searching for insight, for hope. And He provides. Nothing can replace studying the Bible. But if sixty-six books seem overwhelming, The Owner's Manual for Christians is the perfect starting place: a biblical summary of the major truths that anchor the Christian life. From grace to freedom, these chapters walk the reader through the keys to a life well lived—drawn from the Creator of life itself. Life is often confusing, but it does not have to be impossible. Environmental Information in Instructions for Use of Consumer Products May 31 2020 The European Union has highlighted the issue of environmentally sound use of products in the context of Integrated Product Policy, IPP. Accordingly, consumers should have easy access to understandable, relevant and credible environmental information. Information about product characteristics is available in different forms and sources, but in many cases, relevant environmental information is not available on the product itself. The study described in this report was initiated in order to produce information on the state of user instructions regarding environmental information. User manuals of passenger cars and refrigerators were focused on, examining the advice which could diminish the harmful environmental effects of the use of these products. Other studied products included such durable products as textiles and furniture as well as such consumables as cleaning chemicals and recyclable paper products. The study raised many ideas about actions that could promote the status and 'eco-development' of instructions for use.
