NOVEMBER Daily Reading Activities: Main Idea, Fact/Opinion, Inference | Activities Nov 29 2022 Improve Reading Comprehension While Learning Interesting Historical Facts! This book features high-interest, "on this date in history" stories for the month of November. There is an historical nonfiction short story for each day of the month. Reading and Interest Level The stories were written at an approximate reading level of grades 3-4. In some cases, proper names of people, places, and events, as well as other necessary descriptive vocabulary, may drive the reading level up a bit. The interest level is aimed at students in grades 5 and up who may not be reading at grade level. High-Interest Stories The topics chosen are not necessarily the most important thing to have happened on a particular date. The variety of people, places, and events highlighted in each story were chosen to appeal to a wide range of interests. Students will learn a variety of historical facts while improving their reading and comprehension skills. Skill-Specific Lessons Each story is followed by 8 skill-specific comprehension questions. Question formats include multiple-choice, fill-in-the-blank, and writing complete sentences. Skills focus on: main idea, facts, locating the answer, vocabulary, sequence, comparison, cause and effect, fact or opinion, conclusion, and inference. Includes: 65 Pages Answer Key

The Quantified Worker Sep 03 2020 The information revolution has ushered in a data-driven reorganization of the workplace. Big data and AI are used to surveil workers and shift risk. Workplace wellness programs appraise our health. Personality job tests calibrate our mental state. The monitoring of social media and surveillance of the workplace measure our social behavior. With rich historical sources and contemporary examples, The Quantified Worker explores how the workforce science of today goes far beyond increasing efficiency and threatens to erase individual personhood. With exhaustive detail, Ifeoma Ajunwa shows how different forms of worker quantification are enabled, facilitated, and driven by technological advances. Timely and eye-opening, The Quantified Worker advocates for changes in the law that will mitigate the ill effects of the modern workplace.

Cain's Jawbone Jul 14 2021 Six murders. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? In 1934, the Observer's cryptic crossword compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted.

Cobbett's Parliamentary History of England Apr 10 2021

The Jan & Dean Record Apr 30 2020 Jan & Dean were among the most successful artists of the late 1950s through the mid-1960s, with hits including "Baby Talk," "Surf City," "Dead Man's Curve" and "The Little Old Lady (From Pasadena)." Slapstick humor and offbeat personas were a big part of their shtick, but Jan Berry was serious when it came to the studio. This book chronicles Jan's career as a songwriter and arranger--and his tenure as producer for Jan & Dean and other acts--with day-by-day entries detailing recording sessions, single and album releases, concerts and appearances, film and television projects, behind-the-scenes business and legal matters, chart positions and more. Extensive commentary from Berry's family, friends and colleagues is included. Studio invoices, contract details, tape box notes, copyright information and other particulars shed light on how music was made in the Hollywood studio system of the 1960s.
