John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap. Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget. Vigor sets out to remedy that in this book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality. In this adorable and vibrantly illustrated board book, children will love to read all about an adventurous boy and his beloved sail boat. A record breaking solo sailing adventure on the smallest yacht to ever complete a circumnavigation. The book has 120 white pages with dot matrix that will help you while writing and sketching but at the same time gives you enough freedom for notes and other ideas. It comes in handy format 6x9 inches (equivalent to DIN A5). The Nurse Notebook is for those who have a Fable for Medicine or Cure. The Dreamspeaker cruising companions offer charts, tips and data that enhance the enjoyment and safety of any voyage. The guides feature informative and charming hand-drawn shoreline plans of selected marinas and small boat anchorages, ranging from safe all-weather havens to secluded picnic spots and marine parks. Intended to complement official hydrographic charts, the Dreamspeaker Cruising Guides accurately pinpoint both popular and little-known highlights in British Columbia and Pacific Northwest coastal waters that every sailor, power-boater or kayaker should know. Written in the personal style of a boater's logbook, these guides provide vital information about featured locations, plus notes on recreational activities for adults and children. Here you will find the best spots along the west coast of Vancouver Island from Cape Scott to Sooke including Bull Harbour, the Bunsby Islands and Barclay Sound, with full-colour scenic photographs that showcase the splendour of the Pacific Northwest Coast. The vast majority of sailing yacht scenarios comprise a couple sailing the boat together, and needing to carry out all manoeuvres and activities themselves with no help from a back-up crew. Their boat handling, navigation, sail handling, anchoring and mooring skills all have to be carried out both efficiently and effectively, preferably with the minimum of physical effort (to conserve energy). But most sailing technique books assume a crew of 3 or 4, all willing to lend a hand. This book is therefore a first, addressing the most common sailing scenarios that anyone cruising will have to deal with, and providing clever, original, highly effective (and most importantly successfully tried and tested by the author) techniques and solutions for dealing with the huge variety of essential operations on a boat – from sail setting and reefing, to picking up mooring buoys in a variety of wind and tide situations, anchoring, berthing and leaving a pontoon shorthanded, picking up a man overboard, sailing in fog and heavy weather – and even going up the mast. This book will be a godsend to anyone sailing single or shorthanded – including couples with young children who need to be supervised by one parent whilst the other runs the boat. Organised into techniques for different cruising scenarios, the book features step by step sequential photos showing exactly how to approach each situation and carry out the task in hand. Witnessing the Badger is a boating adventure story in the spirit of Arthur Ransome or The Hardy Boys novels that will appeal not only to young readers, but nostalgic adults as well. The story covers territory from Ontarios beautiful Georgian Bay to Lake Michigan, with all points in between, and culminates in a terrifying night-time encounter with the Russian Mafia. This classic good vs. evil story will appeal to anyone who has spent time around the water. And for those who have not been in this happy situation, the book invites you to try it. Youll like it. Author Steven Duff has spent a lifetime in and around boats. He maintains and sails a small fleet of classic boats and has "covered the waterfront" under sail on all the Great Lakes and to New York City. Following retirement from a career as a high-school music teacher, Mr. Duff has been active as a writer, with five books and nearly 100 magazine articles to his credit, covering such diverse topics as history, music, and transportation. As well, he is an enthusiastic artist; not surprisingly, his preference is for seascapes "with something interesting sailing past." The father of two adult daughters and grandfather to two young boaters, Steven Duff lives in Parry Sound, Ontario, with his wife Debra and a toy poodle named Bruno. <http://sbpra.com/StevenDuff> Lin and Larry Pardey have now been cruising on board their own boats, racing, delivering, and repairing other people's boats for more than 44 years. After west-to-east and east-to-west circumnavigations, and voyages to more than 75 countries, they have a breadth of knowledge that few other boating authors possess. Most of the voyaging has been done on an earn-as-you-go budget that could be well within the reach of the majority of those whose dream is to set sail. Their motto? "Go small, go simple, but go now!" The Pardeys' strengths are neatly symbolized by the boats they have built. Each one is romantically traditional, with swooping sheerlines, and is completely dependent on the wind. And yet each boat carries the best, strongest, and most seamanlike gear. Like their vessels, the Pardeys' writings are founded on a marriage of the spirit of romantic adventure and the practical, up-to-date seamanship that keeps them and their boats safe. This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as: sixteen ways to encourage your lover (partner) to share your dream; strategies for turning sudden engine failure into a minor incident; choosing safety equipment; repairing rigging at sea. All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising—whether now or soon. The Capable Cruiser is a logical extension of the Pardeys' The Self-Sufficient Sailor, with more emphasis on seamanship underway, including careful analysis of extreme anchoring situations and solutions for mitigating them. Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick, former editor of Cruising World magazine, to label Lin and Larry Pardey "the enablers." "This workbook is intended to supplement the text Modern Marine Weather with practice questions and convenient resources."--title page verso.
